

Bosch Expanding Anderson County Operations

Company Investing Additional \$45 Million in Facility

By SC Governor's Office

COLUMBIA, S.C. – Bosch, a leading global supplier of technology and services, is expanding its existing Anderson County operations. To accommodate the company's continued growth, Bosch is investing an additional \$45 million.

Employing approximately 402,000 associates worldwide, Bosch is a leading Internet of Things company that offers innovative solutions for smart homes, smart cities, connected mobility and connected manufacturing. Its strategic objective is to deliver innovations for a connected life. With its sales and service partners, Bosch's global manufacturing, engineering and sales network covers nearly every country in the world.

Located at 4421 S.C. Highway 81 in Anderson, S.C., the company's Anderson County expansion will include new manufacturing capabilities to support the portfolio of its Mobility Solutions business sector in North America. Bosch is purchasing an adjacent property previously occupied by a Bosch joint venture.

The Bosch Anderson facility was founded in 1985 to produce fuel rails and has added production capabilities from a number of Bosch divisions that span many areas of the vehicle – including Powertrain Solutions, Automotive Electronics and Car Multimedia. The facility currently employs more than 1,200 associates. Information about open positions at the Anderson facility and other Bosch locations is available at www.bosch.us/careers.

The Coordinating Council for Economic Development has approved job development credits related to this project. A \$100,000 Set Aside grant was also awarded to Anderson County to assist with the costs of site preparation and building construction.
