With starting prices in the high \$200s, the community features seven of the award-winning builder's popular floor plans. Buyers can choose from styles featuring from three to five bedrooms and two to four baths. Each of the homes in Hunters Crossing is situated on one of 26 extra-large home sites, which provide plenty of space for a pool, garden or both.

Buyers can visit the model home at 101 Tracker Court to assess the high level of detailing, the quality finishes, and the intuitive floor plans that define a Sabal house. The Hunters Crossing neighborhood is situated just 15-20 minutes from both downtown Greenville and Clemson University, providing an ideal blend of urban and exurban living.
