SAN JOSE, Calif. -- USA.Life is the top ranked new social media, according to a study. CEO Steven Andrew announced, "USA.Life is the most popular overall and/or in the nation of social networks launched since 2018." Established just one year ago, USA.Life describes itself as "the answer to Facebook and Twitter censoring Christians, conservatives, and liberty." "USA.Life offers conservatives hope, because Big Tech's censorship affects people's lives, national security, elections, relationships and the ability to share your opinion about coronavirus," Andrew said.

People, families and friends connect with those most important to them as this [USA.Life overview video](#) shows. Users, churches, and businesses share photos, updates, news, videos and messages, and join groups.

Here is what people say:
