Oppose H 3205 & All Other Applications for an Article V Convention

Mark Meckler's "COS" organization promises that nothing can come out of an Article V Convention except proposed Amendments to our existing Constitution; and that these proposed amendments will "limit the power of the federal government."

But Robert P. George, a Member of the COS Legal Advisory Board, has already [co-authored a new "conservative" Constitution](#) which grants new powers to a new federal government and imposes gun control! Robert P. George is [a member](#) of the Council on Foreign Relations which seeks to move the United States into the North American Union. See, e.g., [USMCA 'Trade Agreement,' the North American Union, an Article V convention, and Red Flag Laws: Connecting the dots.](#)

As [James Madison warned](#) over 200 years ago, those who want to replace our Constitution will push for a convention under the pretext of getting "amendments".

H 3205 isn't about getting a convention so we can get amendments to limit federal power. It's about getting a convention where a new Constitution can be imposed.

Please defeat H 3205. And please defeat all other applications for an Article V Convention. The ostensible "purpose" of the convention, as set forth in the State's application to Congress, is irrelevant. The pro convention groups are already aggregating applications - some over 100 to 200 years old, to come up with 33 States with applications for a convention [2nd attachment]. *They wanted South Carolina to be their 34th State.*
